# Financial Assistance Program 2026

Submit projects from August 25th to October 19th, 2025

## PARTNERS OF THE CLIMATE CHANGE INITIATIVE

Made possible by:

Financially supported by:

# CLIMATE CHANGE INITIATIVE

## GENERAL OBJECTIVES OF THE FINANCIAL ASSISTANCE PROGRAM (FAP)

- Support creativity and innovation in sustainable development education.
- Foster environmental and social engagement among youth.

## SPECIFIC OBJECTIVES OF THE CLIMATE CHANGE INITIATIVE

- Encourage projects that address changes in habits and/or the transformation of environments in order to reduce greenhouse gases and adapt to climate change.
- Raise awareness and actively engage youth attending the institution on the issue of climate change.

## CONTACT PERSON

**Roxanne Paquet**  
Philanthropic Activities Coordinator

418-523-8585 poste 201

## POTENTIAL FINANCIAL ASSISTANCE

**This initiative has a total budget of \$50,000.** Financial assistance between \$500 and \$2000 is available, depending on your needs.

## HOW TO SUBMIT A PROJECT

Visit our [website](#) for all the necessary information and to complete the online form.

## KEY DATES

**AUGUST 25, 2025**

Program launch.

**OCTOBER 19, 2025**

Deadline to submit a project.

**DECEMBER 2025**

Applicant institutions notified of accepted projects

**OCTOBER 20, 2026**

Deadline to submit final project report with three copyright-free photos.

## PAYMENT OF FINANCIAL ASSISTANCE

**This financial assistance may cover up to 100% of eligible project expenses.**

50% of the funding will be provided upon acceptance of the project and signature of the agreement by your institution's management. The remaining 50% will be paid following the submission of the final report and a minimum of three copyright-free, high-quality photos files. These photos and quotations from the final report will be used for promotional purposes.

## ELIGIBILITY CRITERIA

### INSTITUTIONS

- Early childhood centre, preschool
- Primary and elementary school
- High school
- Adult education – general adult education
- Vocational training
- Cégep
- University faculty
- School board

\*Any institution wishing to submit a project to the FAP must be a member of Mouvement ACTES. **Membership is free and available to most public institutions in Quebec. Visit the Mouvement ACTES website for more information: <https://actes.lacsq.org/>**

### PROJECTS

- must be approved by institution management
- must be under the responsibility of a staff member of the institution

### EXAMPLES OF INELIGIBLE EXPENSES

- Purchase of school supplies or furniture
- Staff training or release time
- School trips not related to the thematic initiative
- Increased fundraising results

Reduction at Source, Reuse and Recycling projects, including composting projects, must be submitted to the “Waste Management | RECYC-QUÉBEC” initiative.

## PROJECT ASSESSMENT

### ASSESSMENT CRITERIA

All things being equal, priority for funding will be given to projects submitted by institutions that have never benefited from the FAP.

**1. Educational activities:** Describe the project’s pedagogical activities and its targeted areas of learning for the students.

**2. Use of materials:** How often will the materials be used and how many young people will they serve?

**3. Suitability of the materials:** How do the materials requested contribute to the project by meeting one of the following objectives: getting outside more often, spending longer periods of time outside, encouraging a connection with nature, promoting connection with the community?

**4. Integration of environmental and social dimensions:** How does your project promote environmental or social actions or behaviour, by integrating values such as solidarity, ecology, democracy, and peace?

**5. Relevance of the project:** How does the project deliver innovative and needs-based outdoor education for your community?

# Need some inspiration?

## Examples of projects in the Climate Change initiative

### 📍 École de Tilleuls, Saint-Pierre-de-la-Rivière-du-Sud

Creation of a gardening committee for the maintenance of the school's mini-greenhouses and hydroponic greenhouses.

### 📍 École Brébeuf, Sherbrooke

Production of video clips to raise awareness of ways to reduce your carbon footprint.

### 📍 École secondaire Chanoine-Beaudet, Saint-Pascal

Creation of bike racks as part of the Science and Technology class.

### 📍 École Paul-Germain-Ostiguy, Saint-Césaire

Development of a green space and vegetable garden.

*Examples of projects in this initiative are available on our website. Use these ideas for inspiration and put your own spin on a project!*
